Experience

Cognizant

Pune, Maharashtra

Associate | Scrum Master

October 2022 – Present

- Led end-to-end facilitation on core Scrum events including Daily Stand-ups, Sprint Planning, Sprint Reviews, Retrospectives, and Backlog Refinement.
- Prepared and shared weekly Sprint Status Reports with leadership, offering clear visibility into team performance.
- Proactively identified and resolved team roadblocks and cross-team dependencies using technical expertise, enabling uninterrupted workflow and reducing delivery risks.
- Monitoring story/task progress using Azure DevOps (ADO) boards, ensuring transparency and tracking key Agile metrics such as sprint burndown, velocity, and issue resolution time.
- Collaborated closely with stakeholders and Client Partners, ensuring timely delivery of both ad-hoc requests and planned deliverables.
- Leveraged Sitecore platform knowledge to facilitate technical discussions, bridge gaps between business requirements and development effort, and challenge inflated estimates constructively.
- Emphasized business values in user stories, ensuring each task was clearly aligned with customer goals and outcomes, reinforcing a value-driven development culture.

Programmer Analyst | Sitecore Development

August 2021 – September 2022

- Facilitated Agile ceremonies (Sprint Planning, Daily Stand-ups, Reviews, Retrospectives), resolving team blockers and ensuring on-time, quality deliverables.
- Collaborated with Stakeholders to translate functional requirements into technical specifications, gaining an end-to-end understanding of the requirement-to-delivery lifecycle.
- Conducted website walkthrough demos for clients and business users, translating technical features into business value and gathering actionable feedback for future sprints.
- Developed and configured Sitecore templates, renderings, and content components for enterprise digital experience projects.
- Prepared functional specification documents and content mapping document to support handover between business and technical teams.

Experience

Cognizant

Pune, Maharashtra

Programmer Analyst Trainee | Sitecore Development

August 2020 – August 2021

- Added new or modified existing content and media in the Sitecore for the client website.
- Participated in the development of user guides and other application documentation.
- Analyzed and understood the *Sitecore CMS* implementation and code implementation by other developers.

Sitecore Intern

February 2020 – July 2020

- I have undergone training on DotNET technologies (C-sharp and ASP.NET MVC) and SQL server during initial training period.
- In the next part of the training I was trained on *Sitecore CMS* based on C-sharp, ASP.NET MVC, and SQL server.
- Developed a website independently at the end of training on *Sitecore CMS*.

Click Labs

Chandigarh, India

iOS Developer Intern

August 2019 – January 2020

- Training in iOS development using Xcode and Swift programming language for three months.
- Post-training, worked for a ride-sharing app and created its white-label applications.
- Worked cooperatively with others on a team to share information, resolve conflicts and make decisions.
- Participate in all phases of projects from customizing the app as per user requirements, to testing and uploading the app to the Apple app store.

Education

Lovely Professional University

Punjab, India

B.Tech in Computer Science and Engineering

August 2016 – July 2020
